

VERIFICATION OF DISABILITY

Student Name _____ Date _____

Date of Birth: _____ UVA Email _____

The student named above has applied for services from the Student Disability Access Center (SDAC) at the University of Virginia. In order to determine eligibility and to provide services, we require documentation of the student’s disability. Under the Americans with Disabilities Act (ADA) of 1990, as amended by the ADA Amendments Act of 2008, and Section 504 of the Rehabilitation Act of 1973, qualified individuals with disabilities are protected from discrimination and may be entitled to reasonable accommodations (which includes academic adjustments and auxiliary aids and services) necessary to ensure equal access to the University’s programs and activities. To establish that an individual has a disability under the law, documentation must indicate that a current mental or physical impairment exists and that the identified impairment substantially limits one or more major life activities. A diagnosis of a disorder, or the existence of an Individualized Education Plan or Section 504 Plan, in and of itself, does not automatically qualify an individual for accommodations. The documentation must also address current functional limitations on the individual and support the request for accommodations. Documentation must be provided by a clinician or treating provider who is licensed and qualified to diagnose the condition and who is not a member of the student’s immediate family. Should documentation be provided that SDAC finds to be inadequate to support the requested accommodations, SDAC will let the student know what additional documentation is necessary.

1. Diagnosis/Description of condition.
2. In addition to ICD-10 and/or DSM-5 criteria, how did you arrive at your diagnosis? Please check all relevant items below, adding brief notes that you think might be helpful to us as we determine which accommodations and services are appropriate for the student.
