

Thank you for providing (via upload, email, fax, etc.) the Department of Student Health and Wellness with your COVID-19 test result!

If you are providing a **POSITIVE TEST RESULT**, please note the following:

- If you currently have COVID-19 or are experiencing long-term effects of COVID-19 and would like a medical consultation, please contact Student Health and Wellness at 434-982-3915 or schedule an appointment online via the HealthyHoos patient portal.
- If you need resources and information regarding isolation/quarantine, well-being, life after COVID-19, etc, visit our COVID-19 webpages (<https://www.studenthealth.virginia.edu/covid-19>).
- You are exempt from University prevalence testing for 150 days after the date of your positive test result. After 150 days have passed, you must resume participation in the prevalence testing program.
- Please remember that you **MUST** continue to follow University, city, and state public health guidelines, including wearing a mask, physically distancing, and frequent hand washing/sanitizing. Having a previous diagnosis of COVID-19 does **NOT** exempt you from these requirements!

If you are providing a **NEGATIVE TEST RESULT**, please note the following:

- If you need resources and information regarding isolation/quarantine, well-being, etc, visit our COVID-19 webpages (<https://www.studenthealth.virginia.edu/covid-19>).
- You must continue participation in the University prevalence testing program.
- Please continue to follow University, city, and state public health guidelines, including wearing a mask, physically distancing, frequent hand washing/sanitizing, and staying home and calling us when sick.

Take care!

The UVA Department of Student Health and Wellness
