CLOSE CONTACT

Some examples of close contact with a person who has tested positive for COVID-19 include:

- being less than six feet from them for at least 15 minutes (e.g., having lunch or being part of a gathering with them);
- living with them;
- providing care for them; or
- having exposure to respiratory secretions (e.g., being coughed or sneezed on, sharing a drinking glass or utensils, kissing) from them.

A person with COVID-19 is considered to be contagious starting from 2 days before they become sick (or 2 days before they tested positive if they never had symptoms) until they meet the criteria to discontinue isolation.

situation

“I am experiencing symptoms that are consistent with COVID-19.”

what to do

- Self-isolate in your dorm room or off Grounds-residence
- Call Student Health and Wellness at 434-924-5362 for further guidance related to your new symptoms
- Follow the instructions of the local health department if they have been in contact with you

situation

“I have no symptoms but was in close contact with a person with COVID-19.”

what to do

Distance yourself from others, including housemates. Contact Student Health and Wellness for further guidance at 434-924-5362.

situation

“I know someone with COVID-19, but I don’t have symptoms and I don’t believe I was in close contact with them.”

what to do

Continue activities as normal, including standard prevention measures. These include wearing a face covering, maintaining physical distance from others outside your household, and frequent use of hand sanitizer/hand washing. The health department will reach out to you with more recommendations if you are identified as a close contact—please answer the call.

Call 911 or go to the nearest emergency room if you are:

- Having trouble breathing
- Experiencing persistent pain or pressure in the chest
- Experiencing new confusion
- Having trouble waking up or staying awake
- Experiencing bluish lips or face
- Having any other symptoms that are severe/concerning
